Newton Robotics Boosts Up at First Competition

By LIAM OAKES

March 10, 2016 at 5:17 PM

On March 5 and 6, Newton High School's robotics team rapidly took a saving turn at their first competition at Mount Olive Regional High School. After remaining steadily in the rankings during the qualification matches, the team luckily advanced to the quarterly finals.

The team also won the Number One Pit Safety Award and the Creativity Award. Lara Pennell, co-captain and safety leader of the team, was deemed the Star of the Day at the competition.
