Natalie Schmitt

ANDOVER — The Andover Regional educational community annually participates in the Sussex County Superintendent's Roundtable Awards program. One eighth grade student is selected by faculty and staff from Long Pond School each year. The successful student must demonstrate academic success, strong character and noteworthy involvement within school and the community.

The school district congratulates eighth grader, Natalie Schmitt, as the 2015-2016 Superintendent's

Round Table award winner. In addition to being recognized at the Long Pond School Good Citizenship Breakfast multiple times, Natalie has consistently earned Honor Roll status while at Long Pond School. Natalie is an exceptionally gifted musician, playing the French Horn and is a member of the Master and Jazz Bands and the Select North Jersey Area Band this year. Natalie enjoys signing and working with visual arts as well. In addition to serving as co-captain of the Long Pond Field Hockey team, she is busy with Girl Scouts, having earned her Bronze Award and is working toward her Silver Award. Serving as an active member of the Long Pond School Robotics Team is another highlight of her eighth-grade experience.

Natalie's school and community service includes serving as a peer leader, volunteer score keeper for the girls basketball team, and member of the very active Altitude program.

Natalie plans to attend Newton High School and to participate in the Honors Program and serve as a member of the Newton Braves Field Hockey and Robotics teams. Performing as a member of the Newton High School wind ensemble and jazz band are also a part of Natalie's High School plan.

Natalie was recognized at the Tuesday, April 26, Andover Regional Board of Education meeting for her many accomplishments. Congratulations to Natalie and to her parents, Richard and Elizabeth Schmitt, and to her principal, Jon Sinclair, and her teachers.
